Message from the Executive Director, Deferred Compensation

As the New Year begins, I encourage each participant to take stock of his or her portfolio to ensure you stay on track to meet your retirement goals. If you have stopped your deferrals to the Plan, now would be the perfect time to re-start your contributions. Re-starting your contributions to the SMART Plan has never been easier. Our Auto Deferral Increase tool allows you to set your savings deferral amount at a rate that you are comfortable with and then automatically increase that savings rate over time.

Please also note that the annual contribution limits for the 457 Plan have increased to \$17,500 for 2013. Please join us for an upcoming SMART Retirement and Beyond Seminar. These seminars are a great way to meet our dedicated SMART Plan staff and learn how the SMART Plan can help you prepare for a more secure retirement. You will also learn how the SMART Plan can complement your defined benefit pension.

As we strive to help meet the needs of our participants, we are pleased to announce that we have negotiated lower fees for three of our index funds. Fees for the International Stock Index Fund were reduced from 14 to 12 basis points; fees for the Small Company Stock Index Fund were reduced from 9.5 to 7 basis points, and fees for the Treasury Inflation Protection "TIPS" Index Fund were reduced from 8 to 6 basis points.

We will continue to set high standards of excellence and work hard to ensure we meet and exceed the expectations of our participants. Your feedback and participation in the Plan is very important to us and we encourage you to continue an open dialogue with your deferred compensation SMART Plan.

David Lynch, Executive Director
